Specialist cleaning. For the environments where detail matters.

Pharmaceutical facilities. Hospitals. Controlled environments.

UK-WIDE COVERAGE **England / Scotland / Wales / Northern Ireland**

SIX SERVICES. A SCOPE BUILT AROUND YOUR SITE.

From operational cleaning to specialist new-build handover.

01 GMP cleaning

Cleaning for pharmaceutical production and supporting areas, planned around the agreed site specification.

02 Cleanroom cleaning

A defined cleaning scope for controlled rooms, support spaces and accessible surfaces.

03 Aseptic cleaning

Specialist cleaning for aseptic and pharmacy environments, with site procedures and entry requirements agreed.

04 Hospital theatre cleaning

Theatres and included adjoining rooms, with access, contents and responsibilities defined with the hospital team.

05 Specialist builders cleaning

Construction-stage cleaning for pharmaceutical and hospital new builds, planned around room completion and handover.

06 Advanced Sparkle Clean

Extra attention to stains during or after builders cleaning on pharmaceutical and hospital new builds. Treatment is assessed for the mark and surface.

Bring us your site, your specification and your target dates.

PROJECT EXPERIENCE & NEXT STEPS

A clear brief.
A focused clean.

For facilities managers, procurement and quality teams, and specialist main contractors.

SOUTH MIMMS, HERTFORDSHIRE

NIBSC

Six-stage cleaning for the CBRM and UKSCB areas in February 2026. Separate cleaning scopes and method statements covered particle removal, surface cleaning and staged washing and rinsing. Project documentation included cleaning reports, material approval sections and handover reporting.

Read the project scope >

RENFREW, SCOTLAND

BES / Terumo Aortic

A six-stage clean in a new laboratory, alongside Sparkle Clean for corridors and two stairwells. The project distinguished laboratory cleaning from finishing work in circulation areas. Paperwork identified work areas and included material approval, job reporting and handover documentation.

HELP US SCOPE YOUR NEXT CLEAN

Send these details with your enquiry.

- **Site & facility**
  Postcode, full address and intended use.
- **Service & project stage**
  Operational site, shutdown or specialist new build.
- **Dates & sequence**
  Access window, room releases and handover dates.
- **Rooms & surfaces**
  Room schedule, approximate area and finishes.
- **Procedures & entry**
  Cleaning specification, induction and gowning.
- **Records & review**
  Required documentation and the accepting site contact.

Scope, travel, access, availability and the programme are agreed for each site. Testing, validation and facility release are specified separately from cleaning.

Put the clean in your programme.
